NON-GAAP FINANCIAL MEASURES

ANGI Homeservices (“ANGI”) reports Adjusted EBITDA as a supplemental measure to GAAP. This measure is one of the primary metrics by which ANGI evaluates the performance of its businesses, on which ANGI's internal budgets are based and by which management is compensated. ANGI believes that investors should have access to, and ANGI is obligated to provide, the same set of tools that ANGI uses in analyzing its results. This non-GAAP measure should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. ANGI endeavors to compensate for the limitations of the non-GAAP measure presented by providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measure.
