Item 7.01. Regulation FD Disclosure.

On December 1, 2021, Dotdash Meredith, Inc., a subsidiary of IAC Inc., (the "Borrower") entered into a Credit Agreement among the Borrower, the lenders party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and the other parties thereto (the "Credit Agreement"). The Borrower is required under the Credit Agreement to provide the administrative agent and lenders with certain financial statements of the Borrower. Following the filing of this report, the Borrower will provide the administrative agent and lenders with the financial statements of Dotdash Meredith, Inc. consisting of the consolidated balance sheet as of June 30, 2023 and December 31, 2022, and the related consolidated statements of operations, comprehensive operations, shareholder's equity, and cash flows for the three and six months ended June 30, 2023 and 2022, and the related notes, as set forth in Exhibit 99.1 hereto.

Exhibit 99.1 is being furnished under Item 7.01 "Regulation FD Disclosure."

Item 9.01. Financial Statements and Exhibits

Exhibits.

Exhibit
Number Description

99.1 Consolidated Financial Statements of Dotdash Meredith, Inc., consisting of the consolidated balance sheet as of June 30, 2023 and December 31, 2022, and the related consolidated statements of operations, comprehensive operations, shareholder's equity, and cash flows for the three and six months ended June 30, 2023 and 2022, and the related notes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1—THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Dotdash Meredith is one of the largest digital and print publishers in America. From mobile to magazines, nearly 200 million people trust Dotdash Meredith to help them make decisions, take action and find inspiration. Dotdash Meredith's over 40 iconic brands include PEOPLE, Better Homes & Gardens, Verywell, FOOD & WINE, The Spruce, Allrecipes, Byrdie, REAL SIMPLE, Investopedia and Southern Living. Dotdash Meredith is a whollyowned subsidiary of IAC Inc. ("IAC").

As used herein, the "Company," "we," "our" or "us" and similar terms refer to Dotdash Meredith and its subsidiaries (unless the context requires otherwise).

The Company has two operating segments: (i) Digital, which includes its digital, mobile and licensing operations; and (ii) Print, which includes its magazine subscription and newsstand operations.

Basis of Presentation

The Company prepares its consolidated financial statements (referred to herein as "financial statements") in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP"). All intercompany transactions and balances between and among the entities comprising the Company have been eliminated.

For the purpose of the financial statements, income taxes have been computed for the Company on an as if standalone, separate tax return basis. See "Note 8—Income Taxes" for additional information.

The unaudited interim financial statements have been prepared in accordance with GAAP for interim financial information and with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and notes required by GAAP for complete annual financial statements. In the opinion of management, the unaudited interim financial statements include all normal recurring adjustments considered necessary for a fair presentation. Interim results are not necessarily indicative of the results that may be expected for the full year. The unaudited interim financial statements should be read in conjunction with the annual audited financial statements of the Company and notes thereto for the year ended December 31, 2022.

Accounting Estimates

Management of the Company is required to make certain estimates, judgments and assumptions during the preparation of its financial statements in accordance with GAAP. These estimates, judgments and assumptions impact the reported amounts of assets, liabilities, revenue and expenses and the related disclosure of assets and liabilities. Actual results could differ from these estimates.

On an ongoing basis, the Company evaluates its estimates, judgments and assumptions, including those related to: the fair value of cash equivalents; the carrying value of accounts receivable, including the determination of the allowance for credit losses; the recoverability of right-of-use assets ("ROU assets"); the useful lives and recoverability of leasehold improvements, equipment, capitalized software and buildings and definite-lived intangible assets; the recoverability of goodwill and indefinite-lived intangible assets; the fair value of interest rate swaps; contingencies; unrecognized tax benefits; the valuation allowance for deferred income tax assets; pension and postretirement benefit expenses, including actuarial assumptions regarding discount rates, expected returns on plan assets, inflation and healthcare costs; and the fair value of and forfeiture rates for stock-based awards, among others. The Company bases its estimates, judgments and assumptions on historical experience, its forecasts and budgets and other factors that the Company considers relevant.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Interest Rate Swaps

In March 2023, the Company entered into interest rate swaps for a total notional amount of \$350 million, which synthetically converted a portion of the Term Loan B from floating rate to fixed rate to manage interest rate risk exposure beginning on April 3, 2023. The Company designated the interest rate swaps as cash flow hedges and applies hedge accounting to these contracts in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification 815, *Derivatives and Hedging*. As cash flow hedges, the interest rate swaps are recognized at fair value on the balance sheet as either assets or liabilities, with the changes in fair value recorded in "Accumulated other comprehensive loss" in the balance sheet and reclassified into "Interest expense" in the statement of operations in the periods in which the interest rate swaps affect earnings. The Company assessed hedge effectiveness at the time of entering into these agreements and determined these interest rate swaps are expected to be highly effective. The Company evaluates the hedge effectiveness of the interest rate swaps quarterly, or more frequently, if necessary, by verifying (i) that the critical terms of the interest rate swaps continue to match the critical terms of the hedged interest payments and (ii) that it is probable the counterparties will not default. If the two requirements are met, the interest rate swaps are determined to be effective and all changes in the fair value of the interest rate swaps are recorded in "Accumulated other comprehensive loss." The cash flows related to interest settlements of the hedged monthly interest payments are classified as operating activities in the statement of cash flows, consistent with the interest expense on the related Term Loan B. See "Note 4—Long-term Debt" for additional information.

General Revenue Recognition

The Company accounts for a contract with a customer when it has approval and commitment from all parties, the rights of the parties and payment terms are identified, the contract has commercial substance and collectability of consideration is probable. Revenue is recognized when control of the promised services or goods is transferred to the Company's customers and in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services or goods.

The Company's disaggregated revenue disclosures are presented in "Note 6 — Segment Information."

Deferred Revenue

Deferred revenue consists of payments that are received or are contractually due in advance of the Company's performance obligation. The Company's deferred revenue is reported on a contract-by-contract basis at the end of each reporting period. The Company classifies deferred revenue as current when the remaining term or expected completion of its performance obligation is one year or less. The deferred revenue balances were \$20.2 million at June 30, 2023 and \$26.7 million at December 31, 2022 and was all current, except for less than \$0.1 million in both periods that was non-current. During the six months ended June 30, 2023, the Company recognized \$25.4 million of revenue that was included in the deferred revenue balance at December 31, 2022. During the six months ended June 30, 2022, the Company recognized \$13.5 million of revenue that was included in the deferred revenue balance at December 31, 2021. The current and non-current deferred revenue balances were \$23.4 million and \$0.1 million, respectively, at December 31, 2021. Non-current deferred revenue is included in "Other long-term liabilities" in the balance sheet.

Practical Expedients and Exemptions

For contracts that have an original duration of one year or less, the Company uses the practical expedient available under FASB Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers*, applicable to such contracts and does not consider the time value of money.

In addition, as permitted under the practical expedient available under ASU 2014-09 the Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less, (ii) contracts with variable consideration that is tied to salesbased or usage-based royalties, allocated entirely to unsatisfied performance obligations, or to a wholly unsatisfied promise accounted for under the series guidance and (iii) contracts for which the Company recognizes revenue at the amount which it has the right to invoice for services performed.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Recent Accounting Pronouncements

There are no recently issued accounting pronouncements that are expected to have a material effect on the results of operations, financial condition or cash flows of the Company.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 2—RESTRUCTURING CHARGES AND TRANSACTION-RELATED EXPENSES

Restructuring Charges

During the first half of 2023, the Company continued to incur costs related to a voluntary retirement program announced in the first quarter of 2022 and recorded adjustments to previously accrued amounts related to a reduction in force plan, for which the related expenses were accrued primarily in the fourth quarter of 2022.

During 2022, management committed to several actions to improve efficiencies and better align its cost structure following the acquisition of Meredith on December 1, 2021, which included: (i) the discontinuation of certain print publications and the shutdown of PeopleTV, for which the related expense was primarily reflected in the first quarter of 2022, (ii) the aforementioned voluntary retirement program, for which the related expense was primarily reflected in the first half of 2022, (iii) the consolidation of certain leased office space, for which the related expense was reflected in the third quarter of 2022 and (iv) the aforementioned reduction in force plan. These actions resulted in \$80.2 million of restructuring charges incurred for the year ended December 31, 2022.

A summary of the costs incurred, payments and related accruals is presented below. The Company anticipates the estimated remaining costs associated with the 2022 restructuring events will be paid by December 31, 2023 from existing cash on hand.

Total	\$	225	\$	13,652	\$	184	\$	36,089

Transaction-Related Expenses

The Company incurred transaction-related expenses in connection with the acquisition of Meredith of \$1.2 million and \$5.2 million for the three and six months ended June 30, 2022, respectively.

NOTE 3—FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The Company categorizes its financial instruments measured at fair value into a fair value hierarchy that prioritizes the inputs used in pricing the asset or liability. The three levels of the fair value hierarchy are:

- Level 1: Observable inputs obtained from independent sources, such as quoted market prices for identical assets and liabilities in active markets.
- Level 2: Other inputs, which are observable directly or indirectly, such as quoted market prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in markets that are not active and inputs that are derived principally from or corroborated by observable market data. The fair values of the Company's Level 2 financial assets are primarily obtained from observable market prices for identical underlying securities that may not be actively traded. Certain of these securities may have different market prices from multiple market data sources, in which case an average market price is used.
- Level 3: Unobservable inputs for which there is little or no market data and require the Company to develop its own assumptions, based on the
 best information available in the circumstances, about the assumptions market participants would use in pricing the assets or liabilities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The following tables present the Company's financial instruments that are measured at fair value on a recurring basis:

June 30, 2023 **Quoted Market Prices for Identical Assets** Significant Other Significant in Active Unobservable Total Observable Markets Inputs Inputs Fair Value (Level 1) Measurements (Level 2) (Level 3) (In thousands) **Assets:** Cash equivalents: Money market funds 227,149 227,149 Time deposits 11,896 11,896 Other non-current assets: Interest rate swaps (a) 4,389 4,389 \$ 16,285 243,434 227,149 Total

⁽a) Interest rate swaps relate to the \$350 million notional amount of the Company's Term Loan B and are included in "Other non-current assets" in the balance sheet. See "Note 1—The Company and Summary of Significant Accounting Policies" and "Note 4—Long-term Debt" for additional information. The fair value of interest rate swaps was determined using discounted cash flows derived from observable market prices, including swap curves, which are Level 2 inputs.

	December 31, 2022

Total	\$	43,000	\$ 10	,871	\$	_	\$	53,871			

Assets measured at fair value on a nonrecurring basis

The Company's non-financial assets, such as goodwill, intangible assets, ROU assets, leasehold improvements, equipment, capitalized software and buildings, are adjusted to fair value only when an impairment is recognized. Such fair value measurements are based predominantly on Level 3 inputs.

During the first quarter of 2023, the Company recorded impairment charges related to certain unoccupied leased office space due to the continued decline in the commercial real estate market; a \$44.7 million impairment of an ROU asset and a \$25.3 million impairment of leasehold improvements, furniture and equipment, which are included in "General and administrative expense" and "Depreciation," respectively, in the statement of operations. The impairment charges represent the amount by which the carrying value of the asset group exceeded its estimated fair value, calculated using a discounted cash flow approach using sublease market assumptions of the expected cash flows and discount rate. The impairment charges were allocated between the ROU assets and related leasehold improvements, furniture and equipment of the asset group based on their relative carrying values.

The excess of fair value over carrying value for a \$126.0 million Digital indefinite-lived intangible asset is less than 20%, based upon the most recent estimate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Financial instruments measured at fair value only for disclosure purposes

The following table presents the carrying value and the fair value of financial instruments measured at fair value only for disclosure purposes:

	June 30,	2023	}		December 3	2022		
	 Carrying Value		Fair Value		Carrying Value		Fair Value	
			(In tho	ısand	s)			
Current portion of long-term debt	\$ (30,000)	\$	(27,769)	\$	(30,000)	\$	(26,700)	
Long-term debt, net (a)	\$ (1,510,796)	\$	(1,398,453)	\$	(1,524,475)	\$	(1,339,213)	

⁽a) At June 30, 2023 and December 31, 2022, the carrying value of long-term debt, net includes unamortized original issue discount and debt issuance costs of \$14.2 million and \$15.5 million, respectively.

At June 30, 2023 and December 31, 2022, the fair value of long-term debt, including the current portion, is estimated using observable market prices or indices for similar liabilities, which are Level 2 inputs.

NOTE 4—LONG-TERM DEBT

Long-term debt consists of:

Less: original issue discount		4,890		5,310				
Less: unamortized debt issuance costs		9,314		10,215				
Total long-term debt, net	\$	1,510,796	\$	1,524,475				

Term Loans and Revolving Facility

On December 1, 2021, the Company entered into a credit agreement ("Credit Agreement"), which provides for (i) the five-year \$350 million Term Loan A, (ii) the seven-year \$1.25 billion Term Loan B (and together with Term Loan A, the "Term Loans") and (iii) a five-year \$150 million revolving credit facility ("Revolving Facility"). The Term Loan A bears interest at an adjusted term secured overnight financing rate ("Adjusted Term SOFR") as defined in the Credit Agreement plus an applicable margin depending on the Company's most recently reported consolidated net leverage ratio, as defined in the Credit Agreement. The adjustment to the secured overnight financing rate is fixed at 0.10% for the Term Loan A. The Term Loan B has a varying adjustment of 0.10%, 0.15% or 0.25% based upon the duration of the borrowing period. At June 30, 2023 and December 31, 2022, the Term Loan A bore interest at Adjusted Term SOFR plus 2.25%, or 7.24% and 5.91%, respectively, and the Term Loan B bore interest at Adjusted Term SOFR, subject to a minimum of 0.50%, plus 4.00%, or 9.26% and 8.22%, respectively. Interest payments are due at least quarterly through the terms of the Term Loans.

In March 2023, the Company entered into interest rate swaps on the Term Loan B for a total notional amount of \$350 million with a maturity date of April 1, 2027. The interest rate swaps synthetically converted \$350 million of the Term Loan B for the duration of the interest rate swaps to a fixed rate of approximately 7.92% ((i) the weighted average fixed interest rate of approximately 3.82% on the interest rate swaps plus (ii) the adjustment to the secured overnight financing rate of 0.10% plus (iii) the base rate of 4.00%), beginning on April 3, 2023.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The interest rate swaps are expected to be highly effective. See "Note 5—Accumulated Other Comprehensive Loss" for the net unrealized gains recognized in "Accumulated other comprehensive loss" and realized gains reclassified into "Interest expense" for the three and six months ended June 30, 2023. At June 30, 2023, \$5.1 million is expected to be reclassified into interest expense within the next twelve months as realized gains. The related asset of \$4.4 million is included in "Other non-current assets" in the balance sheet at June 30, 2023.

The Term Loan A requires quarterly principal payments of approximately \$4.4 million through December 31, 2024, \$8.8 million through December 31, 2025 and approximately \$13.1 million thereafter through maturity. The Term Loan B requires quarterly payments of \$3.1 million through maturity. The Term Loan B may require additional annual principal payments as part of an excess cash flow sweep provision, the amount of which, in part, is governed by the applicable net leverage ratio. No such payment was required related to the period ended December 31, 2022.

There were no outstanding borrowings under the Revolving Facility at June 30, 2023 and December 31, 2022. The annual commitment fee on undrawn funds is based on the Company's consolidated net leverage ratio, as defined in the Credit Agreement, most recently reported and was 40 basis points at both June 30, 2023 and December 31, 2022. Any borrowings under the Revolving Facility would bear interest, at the Company's option, at either a base rate or Adjusted Term SOFR, plus an applicable margin, which is based on the Company's consolidated net leverage ratio.

As of the last day of any calendar quarter, if either (i) \$1.00 or more of loans under the Revolving Facility or Term Loan A are outstanding, or (ii) the outstanding face amount of undrawn letters of credit, other than cash collateralized letters of credit at 102% of face value, exceeds \$25 million, subject to certain increases for qualifying material acquisitions, then the Company will not permit the consolidated net leverage ratio, which permits netting of up to \$250 million in cash and cash equivalents, as of the last day of such quarter to exceed 5.5 to 1.0. The Credit Agreement also contains covenants that would limit the Company's ability to pay dividends, incur incremental secured indebtedness, or make distributions or certain investments in the event a default has occurred or if the Company's consolidated net leverage ratio exceeds 4.0 to 1.0, subject to certain available amounts as defined in the Credit Agreement. This ratio was exceeded for both test periods ended June 30, 2023 and December 31, 2022. The Credit Agreement also permits IAC to, among other things, contribute cash to the Company, which will provide additional liquidity to ensure that the Company does not exceed certain consolidated net leverage ratios for any test period, as further defined in the Credit Agreement. In connection with these capital contributions, the Company may make distributions to IAC in amounts not more than any such capital contributions, provided that no default has occurred and is continuing. Such capital contributions and subsequent distributions impact the consolidated net leverage ratios of the Company. IAC contributed \$145.0 million and \$135.0 million to the Company in June 2023 and March 2023, respectively, which the Company subsequently distributed back to IAC \$130.0 million, \$15.0 million and \$135.0 million in July, June and April 2023, respectively.

The obligations under the Credit Agreement are guaranteed by certain of the Company's wholly-owned subsidiaries and are secured by substantially all of the assets of the Company and certain of its subsidiaries.

NOTE 5—ACCUMULATED OTHER COMPREHENSIVE LOSS

The following tables present the components of accumulated other comprehensive loss:

At June 30, 2023, there was \$1.0 million of income tax provision related to unrealized gains on interest rate swaps. At June 30, 2022, there was no income tax benefit or provision on the accumulated other comprehensive loss.

NOTE 6—SEGMENT INFORMATION

The overall concept that the Company employs in determining its operating segments is to present the financial information in a manner consistent with the chief operating decision maker's view of the businesses. In addition, we consider how the businesses are organized as to segment management and the focus of the businesses with regards to the types of services or products offered or the target market.

The following table presents revenue by reportable segment:

Settlements during the three and six months ended June 30, 2023 triggered remeasurements of the pension plans in the U.S. The actuarial gain of \$0.4 million for the three months ended June 30, 2023 primarily relates to investment performance and an increase in the discount rate. The actuarial gain of \$0.2 million for the six months ended June 30, 2023 primarily relates to investment performance, partially offset by a loss due to an adjustment in plan demographics.

Settlements during the three and six months ended June 30, 2022 triggered remeasurements of Meredith's funded pension plans in the United Kingdom ("U.K.") and U.S. The U.K. actuarial losses of \$43.6 million and \$68.6 million for the three and six months ended June 30, 2022, respectively, primarily relate to the decline in the fair value of the U.K. pension plan's assets exceeding the decline in the plan liabilities, in each case due to higher interest rates. The U.S. actuarial gain of \$2.4 million for the three months ended June 30, 2022 primarily relates to the revaluation of an annuity contract, partially offset by a loss due to the decline in the fair value of the U.S. pension plan's assets exceeding the decline in the plan liabilities. The U.S. actuarial loss of \$10.1 million for the six months ended June 30, 2022 primarily relates to the decline in the fair value of plan assets.

The following table summarizes the weighted average expected return on plan assets used to determine the net periodic benefit costs at June 30, 2023, following the remeasurements, and December 31, 2022, respectively:

	June 30, 2023	December 31, 2022
_	Pen	sion
	Domestic	Domestic
Expected return on plan assets	4.31 %	2.80 %

The components of net periodic benefit (credit) cost, other than the service cost component, are included in "Other income (expense), net" in the statement of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

NOTE 8—INCOME TAXES

The Company is included within IAC's tax group for purposes of federal and consolidated state income tax return filings. In all periods presented, the income tax provision and/or benefit has been computed for the Company on an as if standalone, separate tax return basis and payments to and refunds from IAC for the Company's share of IAC's consolidated federal and state tax return liabilities/receivables calculated on this basis have been reflected within operating activities in the statement of cash flows. The Company will reimburse IAC for its share of consolidated tax liabilities as if the Company were a standalone, separate return filer subsequent to the date of the acquisition of Meredith. Any differences between taxes currently payable to or receivable from IAC under this agreement and the current tax provision computed on an as if standalone, separate return basis for GAAP are reflected as adjustments to additional paid-in capital and as financing activities within the statement of cash flows.

At the end of each interim period, the Company estimates the annual expected effective income tax rate and applies that rate to its ordinary year-to-date earnings or loss. The income tax provision or benefit related to significant, unusual, or extraordinary items, if applicable, that will be separately reported or reported net of their related tax effects are individually computed and recognized in the interim period in which they occur. In addition, the effect of changes in enacted tax laws or rates, tax status, judgment on the realizability of a beginning-of-the-year deferred tax asset in future years or unrecognized tax benefits is recognized in the interim period in which the change occurs.

The computation of the annual expected effective income tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected pre-tax income (or loss) for the year, projections of the proportion of income (and/or loss) earned and taxed in foreign jurisdictions, permanent and temporary differences and the likelihood of the realization of deferred tax assets generated in the current year. The accounting estimates used to compute the provision or benefit for income taxes may change as new events occur, more experience is acquired, additional information is obtained or the Company's tax environment changes. To the extent that the expected annual effective income tax rate changes during a quarter, the effect of the change on prior quarters is included in income tax provision or benefit in the quarter in which the change occurs. Included in the income tax benefit for the three months ended June 30, 2023 was a provision of \$0.2 million due to a lower estimated annual effective tax rate from that applied to the first quarter's ordinary loss from continuing operations.

For the three and six months ended June 30, 2023, the Company recorded an income tax benefit of \$11.9 million and \$47.6 million, respectively, which represents an effective income tax rate of 25% for both periods, which is higher than the statutory rate of 21% due primarily to state taxes and research credits. For the three and six months ended June 30, 2022, the Company recorded an income tax benefit of \$22.3 million and \$47.8 million, respectively, which represents an effective income tax rate of 25% and 24%, respectively. For the three months ended June 30, 2022, the effective income tax rate was higher than the statutory rate of 21% due primarily to research credits, benefits related to a change in the annual expected effective income tax rate and state taxes, partially offset by the taxable gain on the sale of a subsidiary. For the six months ended June 30, 2022, the effective income tax rate was higher than the statutory rate of 21% due primarily to research credits and state taxes.

The Company recognizes interest and, if applicable, penalties related to unrecognized tax benefits in the income tax provision. Accruals for interest and penalties are not material.

The Company's income taxes are routinely under audit by federal, state, local and foreign authorities as a result of previously filed separate company and consolidated income tax returns with IAC. These audits include questioning the timing and the amount of income and deductions and the allocation of income and deductions among various tax jurisdictions. On June 27, 2023, the Joint Committee of Taxation completed its review of the federal income tax returns for the years ended December 31, 2013 through 2019, which include the operations of the Company, and approved the audit settlement previously agreed to with the Internal Revenue Service. The statute of limitations for the years 2013 through 2019 expires on December 31, 2023. Returns filed in various other jurisdictions are open to examination for tax years beginning with 2014. Income taxes payable include unrecognized tax benefits considered sufficient to pay assessments that may result from the examination of prior year tax returns. The Company considers many factors when evaluating and estimating its tax positions and tax benefits, which may not accurately anticipate actual outcomes and, therefore, may require periodic adjustment. Although management currently believes changes in unrecognized tax benefits from period to period and differences between amounts paid, if any, upon resolution of issues raised in audits and amounts previously provided will not have a material impact on the liquidity, results of operations or financial condition of the Company, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

At June 30, 2023 and December 31, 2022, unrecognized tax benefits, including interest and penalties, are \$4.0 million and \$3.5 million, respectively. Unrecognized tax benefits, including interest and penalties, at June 30, 2023 increased by \$0.5 million due primarily to state audits and research credits, partially offset by settlements. If unrecognized tax benefits at June 30, 2023 are subsequently recognized, \$3.8 million, net of related deferred tax assets and interest, would reduce income tax expense. The comparable amount at December 31, 2022 was \$3.3 million. The Company believes that it is reasonably possible that its unrecognized tax benefits could decrease by \$0.5 million by December 31, 2023 due to expected settlements of which \$0.4 million would reduce the income tax provision.

NOTE 9—FINANCIAL STATEMENT DETAILS

Cash and Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the balance sheet to the total amounts shown in the statement of cash flows:

		June 30, 2023		December 31, 2022	June 30, 2022			December 31, 2021
Cash and cash equivalents	\$	259,395	\$	123,866	\$	246,931	\$	233,393
Restricted cash included in other current assets		7,056		_		_		1,227
Restricted cash included in other non-current assets		_		6,641		6,747		_
Total cash and cash equivalents and restricted cash as shown on the statement of cash flows	\$	266,451	\$	130,507	\$	253,678	\$	234,620

Restricted cash included in "Other current assets" and "Other non-current assets" in the balance sheet primarily consists of cash held in escrow related to the funded pension plan in the U.K.

Credit Losses

The following table presents the changes in the allowance for credit losses for the six months ended June 30, 2023 and 2022, respectively:

	2023	2022
	 (In tho	usands)
Balance at January 1	\$ 6,493	\$ 1,679
Current period provision for credit losses	1,528	3,600
Write-offs charged against the allowance	(2,427)	(776)
Recoveries collected	104	_
Other	_	81
Balance at June 30	\$ 5,698	\$ 4,584

Accumulated Amortization and Depreciation

The following table provides the accumulated amortization and depreciation within the balance sheet:

Asset Category	June 30, 2023		December 31, 2022
	(In tho	usand	s)
ROU assets included in other non-current assets	\$ 126,297	\$	63,256

⁽a) Includes pre-tax actuarial gains of \$0.4 million and \$0.2 million for the three and six months ended June 30, 2023, respectively, related to the pension plans in the U.S. and pre-tax actuarial losses of \$41.2 million and \$78.7 million for the three and six months ended June 30, 2022, respectively, related to the funded pension plans in the U.S. and U.S. See "Note 7—Pension and Postretirement Benefit Plans" for additional information.

NOTE 10—CONTINGENCIES

In the ordinary course of business, the Company is a party to various lawsuits. The Company establishes accruals for specific legal matters when it determines that the likelihood of an unfavorable outcome is probable and the loss is reasonably estimable. Management has also identified certain other legal matters where it believes an unfavorable outcome is not probable and, therefore, no accrual is established. Although management currently believes that resolving claims against the Company, including claims where an unfavorable outcome is reasonably possible, will not have a material impact on the liquidity, results of operations, or financial condition of the Company, these matters are subject to inherent uncertainties and management's view of these matters may change in the future. The Company also evaluates other contingent matters, including uncertain income tax positions and non-income tax contingencies, to assess the likelihood of an unfavorable outcome and estimated extent of potential loss. It is possible that an unfavorable outcome of one or more of these lawsuits or other contingencies could have a material impact on the liquidity, results of operations or financial condition of the Company. See "Note 8—Income Taxes" for information related to uncertain income tax positions.

NOTE 11—RELATED PARTY TRANSACTIONS

The Company recognized revenue of \$2.3 million and \$4.5 million for the three and six months ended June 30, 2023, respectively, and \$1.9 million and \$3.5 million for the three and six months ended June 30, 2022, respectively, related to advertising and audience targeted advertising sold to other IAC owned businesses. At June 30, 2023 there were outstanding receivables of \$2.4 million related to the revenue earned.

At June 30, 2023, the Company had an outstanding payable of less than \$0.1 million due to IAC pursuant to the tax sharing agreement, which is included in "Accrued expenses and other current liabilities" in the balance sheet. At December 31, 2022, there was \$25.1 million due to IAC pursuant to the tax sharing agreement, which was subsequently paid to IAC in April 2023.

As permitted by the Credit Agreement, IAC made capital contributions to the Company in June and March 2023, which were subsequently distributed back to IAC in July, June and April 2023. Refer to "Note 4—Long-term Debt" for additional information.

Pursuant to the terms of the Company's stock-based awards granted under its equity incentive plan, until the common shares of the Company (or its successor(s)) trade on a national securities exchange, shares of IAC common stock are issued to employees in settlement of the exercise of the Company's vested awards after deduction for required tax withholdings, which are remitted on the employees' behalf. The Company reimburses IAC in the form of cash and/or Dotdash Meredith common shares at IAC's election.

NOTE 12—SUBSEQUENT EVENTS

In preparing these financial statements, management evaluated subsequent events through August 8, 2023, on which date the financial statements were available for issue.
