Search & Applications

Websites revenue increased primarily due to the contribution from About.com (acquired September 24, 2012) and CityGrid Media (moved from Local to Search & Applications effective July 1, 2013). Applications revenue increased modestly versus the prior year period. Profits increased primarily due to lower cost of acquisition as a percentage of revenue and the contribution from About.com. Operating income in the current year period reflects an increase of \$6.7 million in amortization of intangibles primarily related to the acquisition of About.com.

Core, Meetic and Developing revenues grew 7%, 11% and 58% to \$118.8 million, \$56.3 million and \$26.0 million, respectively. Core and Meetic revenue growth was driven by increased subscribers. Developing revenue growth was driven by increased subscribers and the contribution of Twoo, which was not in the prior year period. Operating Income Before Amortization grew in line with revenues.

SEE IMPORTANT NOTES AT END OF THIS DOCUMENT

2

Local, Media and Other

Local revenue decreased primarily due to the move of CityGrid Media from Local to Search & Applications. Media revenue decreased due to the impact from the closure of the Newsweek print business (December 2012). Excluding the aforementioned items, revenue for the three segments combined grew 21% primarily due to increased revenue at Electus, Vimeo, Felix and Shoebuy and the contribution from Tutor.com, which was not in the prior year period. Operating Income Before Amortization benefited from the \$8.4 million gain on the sale of Rezbook (July 2013) and \$5.8 million in net gains related to the sale of Newsweek (August 2013) and shutdown costs associated with the print business (December 2012). Local operating income also reflects an increase of \$2.1 million in amortization of intangibles primarily related to HomeAdvisor.

Corporate

Corporate operating loss in 2013 declined due to a decrease in non-cash compensation expense of \$8.9 million primarily due to the vesting of certain awards.

OTHER ITEMS

Interest expense increased due to the 4.75% Senior Notes due 2022, which were issued in December 2012.

Other income, net in Q3 2013 includes an \$18.0 million pre-tax gain related to the sale of certain marketable equity securities.

The effective tax rates for continuing operations in Q3 2013 and Q3 2012 were 28% and 37%, respectively. The effective tax rates for Adjusted Net Income in Q3 2013 and Q3 2012 were 29% and 35%, respectively. The effective tax rates were lower in Q3 2013 primarily due to the realization of certain deferred tax assets in the current period.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2013, IAC had 83.3 million common and class B common shares outstanding. As of October 25, 2013, the Company had 10.2 million shares remaining in its stock repurchase authorization. IAC may purchase shares over an indefinite period on the open market and in privately negotiated transactions, depending on those factors IAC management deems relevant at any particular time, including, without limitation, market conditions, share price and future outlook.

As of September 30, 2013, IAC had \$768.0 million in cash and cash equivalents and marketable securities as well as \$580.0 million in long-term debt. The Company has \$300.0 million in unused borrowing capacity under its revolving credit facility.

IAC'S PRINCIPLES OF FINANCIAL REPORTING

IAC reports Operating Income Before Amortization, Adjusted Net Income, Adjusted EPS and Free Cash Flow, all of which are supplemental measures to GAAP. These measures are among the primary metrics by which we evaluate the performance of our businesses, on which our internal budgets are based and by which management is compensated. We believe that investors should have access to, and we are obligated to provide, the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. IAC endeavors to compensate for the limitations of the non-GAAP measures presented by providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. We encourage investors to examine the reconciling adjustments between the GAAP and non-GAAP measures, which are included in this release. Interim results are not necessarily indicative of the results that may be expected for a full year.

Definitions of Non-GAAP Measures

<u>Operating Income Before Amortization</u> is defined as operating income excluding, if applicable: (1) non-cash compensation expense, (2) amortization and impairment of intangibles, (3) goodwill impairment, (4) acquisition-related contingent consideration fair value adjustments and (5) one-time items. We believe this measure is useful to investors because it represents the consolidated operating results from IAC's segments, taking into account depreciation, which we believe is an ongoing cost of doing business, but excluding the effects of any other non-cash expenses. Operating Income Before Amortization has certain limitations in that it does not take into account the impact to IAC's statement of operations of certain expenses, including non-cash compensation and acquisition-related accounting.

<u>Adjusted Net Income</u> generally captures all items on the statement of operations that have been, or ultimately will be, settled in cash and is defined as net earnings attributable to IAC shareholders excluding, net of tax effects and noncontrolling interests, if applicable: (1) non-cash compensation expense, (2) amortization and impairment of intangibles, (3) goodwill impairment, (4) acquisition-related contingent consideration fair value adjustments, (5) income or loss effects related to IAC's former passive ownership in VUE, (6) the re-measurement loss recorded upon acquiring control of News_Beast, (7) one-time items and (8) discontinued operations. We believe Adjusted Net Income is useful to investors because it represents IAC's consolidated results, taking into account depreciation, which we believe is an ongoing cost of doing business, as well as other charges that are not allocated to the operating businesses such as interest expense, income taxes and noncontrolling interests, but excluding the effects of any other non-cash expenses.

Adjusted EPS is defined as Adjusted Net Income divided by fully diluted weighted average shares outstanding for Adjusted EPS purposes. We include dilution from options and warrants in accordance with the treasury stock method and include all restricted stock units ("RSUs") in shares outstanding for Adjusted EPS, with performance-based RSUs included based on the number of shares that the Company believes are probable of vesting. This differs from the GAAP method for including RSUs, which are treated on a treasury method, and performance-based RSUs, which are included for GAAP purposes only to the extent the performance criteria have been met (assuming the end of the reporting period is the end of the contingency period). Shares outstanding for Adjusted EPS purposes are therefore higher than shares outstanding for GAAP EPS purposes. We believe Adjusted EPS is useful to investors because it represents, on a per share basis, IAC's consolidated results, taking into account depreciation, which we believe is an ongoing cost of doing business, as well as other charges which are not allocated to the operating businesses such as interest expense, income taxes and noncontrolling interests, but excluding the effects of any other non-cash expenses. Adjusted EPS do not account for IAC's former passive ownership in VUE. Therefore, we think it is important to evaluate these measures along with our consolidated statement of operations.

<u>Free Cash Flow</u> is defined as net cash provided by operating activities, less capital expenditures. In addition, Free Cash Flow excludes, if applicable, tax payments and refunds related to the sales of certain businesses and investments, including IAC's interests in VUE, an internal restructuring and dividends received that represent a return of capital due to the exclusion of the proceeds from these sales and dividends from cash provided by operating activities. We believe Free Cash Flow is useful to investors because it represents the cash that our operating businesses generate, before taking into account non-operational cash movements. Free Cash Flow has certain limitations in that it does not represent the total increase or decrease in the cash balance for the period, nor does it represent the residual cash flow for discretionary expenditures. For example, it does not take into account stock repurchases. Therefore, we think it is important to evaluate Free Cash Flow along with our consolidated statement of cash flows.

IAC'S PRINCIPLES OF FINANCIAL REPORTING - continued

One-Time Items

Operating Income Before Amortization and Adjusted Net Income are presented before one-time items, if applicable. These items are truly one-time in nature and non-recurring, infrequent or unusual, and have not occurred in the past two years or are not expected to recur in the next two years, in accordance with SEC rules. GAAP results include one-time items. For the periods presented in this release, there are no adjustments for one-time items.

Non-Cash Expenses That Are Excluded From Our Non-GAAP Measures

<u>Non-cash compensation expense</u> consists principally of expense associated with the grants, including unvested grants assumed in acquisitions, of stock options, restricted stock units and performance-based RSUs. These expenses are not paid in cash, and we include the related shares in our fully diluted shares

outstanding which, for stock options and restricted stock units are included on a treasury method basis, and for performance-based RSUs are included on a treasury method basis once the performance conditions are met. We view the true cost of our restricted stock units and performance-based RSUs as the dilution to our share base, and such units are included in our shares outstanding for Adjusted EPS purposes as described above under the definition of Adjusted EPS. Upon the exercise of certain stock options and vesting of restricted stock units and performance-based RSUs, the awards are settled, at the Company's discretion, on a net basis, with the Company remitting the required tax-withholding amount from its current funds.

<u>Amortization of intangibles (including impairment of intangibles, if applicable) and goodwill impairment (if applicable)</u> are non-cash expenses relating primarily to acquisitions. At the time of an acquisition, the identifiable definite-lived intangible assets of the acquired company, such as content, technology, customer lists, advertiser and supplier relationships, are valued and amortized over their estimated lives. Value is also assigned to acquired indefinite-lived intangible assets, which comprise trade names and trademarks, and goodwill that are not subject to amortization. An impairment is recorded when the carrying value of an intangible asset or goodwill exceeds its fair value. While it is likely that we will have significant intangible amortization expense as we continue to acquire companies, we believe that intangible assets represent costs incurred by the acquired company to build value prior to acquisition and the related amortization and impairment charges of intangible assets or goodwill, if applicable, are not ongoing costs of doing business.

<u>Acquisition-related contingent consideration fair value adjustments</u> are accounting adjustments to report contingent consideration liabilities at fair value. These adjustments can be highly variable and are excluded from our assessment of performance because they are considered non-operational in nature and, therefore, are not indicative of current or future performance or ongoing costs of doing business.

<u>Income or loss effects related to IAC's former passive ownership in VUE</u> are excluded from Adjusted Net Income and Adjusted EPS because IAC had no operating control over VUE, which was sold for a gain in 2005, had no way to forecast this business, and did not consider the results of VUE in evaluating the performance of IAC's businesses.

Free Cash Flow

We look at Free Cash Flow as a measure of the strength and performance of our businesses, not for valuation purposes. In our view, applying "multiples" to Free Cash Flow is inappropriate because it is subject to timing, seasonality and one-time events. We manage our business for cash and we think it is of utmost importance to maximize cash — but our primary valuation metrics are Operating Income Before Amortization and Adjusted EPS.

OTHER INFORMATION

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

This press release and our conference call, which will be held at 4:30 p.m. Eastern Time on October 29, 2013, may contain "forward -looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The use of words such as "anticipates," "estimates," "expects," "intends," "plans" and "believes," among others, generally identify forward-looking statements. These forward-looking statements include, among others, statements relating to: IAC's future financial performance, IAC's business prospects and strategy, anticipated trends and prospects in the industries in which IAC's businesses operate and other similar matters. These forward-looking statements are based on management's current expectations and assumptions about future events, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, among others: changes in senior management at IAC and/or its businesses, changes in our relationship with, or policies implemented by, Google, adverse changes in economic conditions, either generally or in any of the markets in which IAC's businesses operate, adverse trends in the online advertising industry or the advertising industry generally, our ability to convert visitors to our various websites into users and customers, our ability to offer new or alternative products and services in a cost-effective manner and consumer acceptance of these products and services, operational and financial risks relating to acquisitions, changes in industry standards and technology, our ability to expand successfully into international markets and regulatory changes. Certain of these and other risks and uncertainties are discussed in IAC's filings with the Securities and Exchange Commission ("SEC"). Other unknown or unpredictable factors that could also adversely affect IAC's business, financial condition and results of operations may arise from time to time. In light of these risks and uncertainties, these forward-looking statements may not prove to be accurate. Accordingly, you should not place undue reliance on these forward-looking statements, which only reflect the views of IAC management as of the date of this press release. IAC does not undertake to update these forward-looking statements.

About IAC

IAC (NASDAQ: IACI) is a leading media and internet company comprised of more than 150 brands and products, including Ask.com, About.com, Match.com, HomeAdvisor.com and Vimeo.com. Focused in the areas of search, applications, online dating, local and media, IAC's family of websites is one of the largest in the world, with more than a billion monthly visits across more than 30 countries. The Company is headquartered in New York City with offices in various locations throughout the U.S. and internationally. To view a full list of IAC's companies, please visit our website at www.iac.com.
